Follow these instructions to complete this project:

1. Remove your Transfer from its packaging.
2. Carefully peel the Enjoy the Little Things Transfer off the Transfer Backer Sheet.
3. "Fuzz" the Transfer by gently pressing onto a Fuzzing Cloth and carefully pulling it upward. This will make the Transfer easier to remove from the surface after you've applied the paste.
4. Place the Transfer slightly above the center of the Board & Base and smooth it out to ensure it has properly adhered and that there are no bubbles or wrinkles.
5. Knead your Chalkology Paste Singles. Cut open the corner of each packet and squeeze the desired amount of paste onto a Color Tray, using a new tray for each color.
6. Beginning from the top, use the Mini Squeegee to smooth a small amount of paste over the Transfer (see "Color and Placement Suggestions").
7. As you work through each detail and color, use your Mini Squeegee to clear the excess paste off as evenly as possible, and scrape it back into the tray. The more excess paste you remove, the better the result will be.
8. *Before the paste dries*, remove your Transfer from the surface and immediately clean the Transfer with cool water (*do not let it soak*).
9. Dry the Transfer elements flat with the sticky side up.
10. Reapply the Transfer Backer Sheet and store flat.
11. Place the board into its slotted spot on the base for display.
12. Glow on—show off your new creation and remember to enjoy the little details of life.
