

HOW TO CHALK BOX™ KIT

SPIRIT OF HALLOWEEN

Included in your Chalk Box™ kit:

Chalk Couture™ Transfer: Spirit of Halloween

Chalkology™ Paste Singles: Black Velvet, Storm, Orange Peel

Surface: Couture Boutique™ Board Odette Black Frame (White, 9" x 12")

Additional supplies needed:

Fuzzing Cloth	Mini Squeegee
Multi-Tool	Transfer Trimmers
Small Squeegee	Permanent Marker

Follow these instructions to complete the Chalk Box™ project:

1. Prepare your board by wiping it clean of any debris or dust.
2. Prepare your Chalk Transfer™ design by removing it from the packaging. Label the backer paper with marker to correspond with the image to expedite cleanup.
3. Remove the backer from the Transfer screen and “fuzz” the Transfer to gentle the adhesive by sticking the adhesive side to the Fuzzing Cloth to pick up a bit of lint before applying it to your board.
4. Center the Transfer on the board and smooth it down to adhere, ensuring there are no bubbles.
5. Prepare your Chalkology™ Paste by kneading the Paste Single packets, tearing off corners, and squeezing desired amounts onto a dish or other palette surface.
6. Use a small amount of Orange Peel Chalkology™ Paste on the Small Squeegee and smooth it over the word “spooky.” Use the Mini Squeegee to smooth Black Velvet Chalkology™ Paste over the words “black cats” and the bat.
7. Pull up the Transfer ONLY where you have spread the paste thus far. This keeps the paste from drying on the surface before you finish the entire design—we call this technique “chalk and pull.”
8. Use a generous amount of Storm Chalkology™ Paste on the Multi-Tool and smooth it over the word “Halloween.” Again, pull the Transfer back just past the word “Halloween.”
9. Smooth Black Velvet paste over the little bat, then smooth Orange Peel over the words “Trick or Treat.” Chalk carefully around the elements and keep peeling as you go.
10. Smooth Black Velvet paste over the words “haunted houses” and smooth Storm paste over the words “Oct 31st.” Mix the colors any way you choose or even do it quickly in all one color—customize it for yourself!
11. Once all screened areas are completely covered, squeegee the excess paste off as evenly as possible. The more excess paste you remove, the better the result.
12. Carefully peel the Transfer off the board before the paste dries and clean the Transfer with water immediately to clean thoroughly. Once clean, lay it flat to dry sticky side up.
13. Once the Transfer is clean and completely dry, reapply the backer and store flat.
