

HOW TO CHALK BOX™ KIT

CHRISTMAS STORY COLLECTION—GIFT TAGS

Included in your Chalk Box™ kit:

Chalk Couture™ Transfer:

Christmas Story Collection—Gift Tags (B-sized, 8½" × 11")

Chalkology™ Paste Singles: Meadow, Black Velvet, Candy Apple

Surface: Tag Minis (6-Pack, 3" × 5"), Chalk Markers (White, Black, 2-Pack)

Additional supplies needed:

Fuzzing Cloth	Transfer Trimmers
Multi-Tool	Permanent Marker
Mini Squeegee	Small dishes for paste
Small Squeegee	

Follow these instructions to complete the Chalk Box™ project:

1. Prepare your project by laying out the gift tag surfaces, Chalkology™ Paste Singles, and other supplies.
2. Prepare your Chalk Transfer™ design by removing it from the packaging and use Transfer Trimmers to cut apart the individual elements. Label the backer papers with permanent marker to correspond with the image to expedite cleanup.
3. Select Transfer design elements to plan the look you want for each tag.
4. Remove the backer from the first Transfer screen and “fuzz” it to gentle the adhesive by sticking the adhesive side to the Fuzzing Cloth to pick up a bit of lint before applying it to your tag. Repeat this process with each Transfer element before using.
5. Place your Transfer on the first gift tag. Continue placing Transfer elements according to the paste color you'll use first (for example, place all Transfer elements that will be Black Velvet).
6. Prepare your Chalkology™ Paste by kneading the Paste Single packet, tearing off the corner, and squeezing the desired amount onto a dish or other palette surface.
7. Load your choice of squeegee and smooth Chalkology™ Paste over the Transfer screen. Peel the Transfer and clean with water. Allow the layer to dry thoroughly.
8. Align the next elements on the gift tag surfaces. Load a clean squeegee and smooth desired Chalkology™ Paste color across the screens. Peel the Transfer elements and clean with water. Allow the layer to dry thoroughly.
9. Repeat with the remaining Transfer elements and Chalkology™ Paste colors until you are finished with the tag designs.
10. Allow tags to dry completely before addressing with Chalk Markers and adding twine.
11. Clean all Transfer elements thoroughly and lay them flat to dry sticky side up.
12. Once the elements are clean and completely dry, reapply the backers and store flat.
